Fair Value of Financial Instruments

Fair Values of Financial Instruments are determined according to the following hierarchy as described below: Level 1 - quoted market price (unadjusted): financial instruments with quoted prices in active markets

Level 2 - valuation techniques using observable inputs: financial instruments with quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in inactive markets and financial instruments are valued using models where all significant inputs are observable

Level 3 - valuation techniques with significant unobservable inputs: This category includes all instruments valued using valuation techniques where one or more significant inputs are unobservable.

There were no material changes in the fair value of financial assets categorised under Level 3 compared to the values reported as at 31 December 2023. The Group has not changed the valuation models and assumptions used to measure the fair values of Level 03 financial instruments during the period ended 31 March 2024.
